3M™ Exterior Aircraft Graphic Films:

- ▶ Offer greater graphic creativity than paint
- ▶ Can reduce or eliminate VOC emissions associated with paint
- ▶ Install faster than paint process and cure time for less downtime
- ▶ Feature premium cast film with a permanent adhesive
- ▶ Have been designed and tested for aircraft adhesion, durability, fluid resistance and UV exposure
- ▶ Are resistant to de-icing spray, water, Mil-L-7808 oil and Jet A fuel so graphics stay looking great
- ▶ Offer perforated films for pressurized areas of aircraft to support changes in pressure, helping prevent large bubbles
- ▶ Are protected with a clear coat to reduce the harmful effects of UV light and other harsh environmental elements
- ▶ Provide reliable performance in fluctuating temperatures and harsh conditions
- ▶ Are durable for maximum performance life
- ▶ Easily clean with common cleaning solutions
- ▶ Are covered by a specific warranty for 3M™ Exterior Aircraft Graphic Films
