

TOOLS for PROFESSIONALS

Just about every signmaker, carwraper and film installer uses them. It keeps the sheet of film on the car body during positioning and installation. There are now numerous types on the market. But could this handy tool still be improved? Yes! We have done it for you. There are two versions available.

The new SOTT magnets

stronger than any other magnet on the market - 2 different sizes - unique properties

150-MM882
Mounting Magnet

THE REPLACEMENT

This magnet has similar shape and dimensions than existing magnets, but it stands apart through its magnetic force. Would you like to know about the advantages?

Call one of our consultants for more information or download the english version on www.sott-international.com.

150-MM883
The Goliath

THE ALL-ROUNDER

Never seen anything like it! This large magnet not only has this enormous pull, but additionally has 5 unique qualities which makes it a MUST-HAVE for every film installer.

All benefits are illustrated at www.sott-international.com or you can download the data sheet. You can also phone one of our consultants.
